

Online Degrees and Certificate Programs

Did you know you can obtain multiple JJC degrees and certificates *entirely* online? All you need is an internet connection to start learning. In addition, online courses at JJC cost the same whether you live in or out of district.

How do I apply?

The application and admission process is the same for online and on campus students. Students must complete an application and forward all transcripts to the college admission office at jjc.edu/apply.

Is financial aid available?

Yes! As an online student you are eligible for the same financial aid benefits available to all students. Students are encouraged to apply for financial aid and scholarship opportunities. Visit jjc.edu/scholarships for further information.

What services are available?

All campus services are available online or via phone, and include advising, counseling, financial aid and tutoring.

Gainful Employment Statistics

Important information about the educational debt, earnings and completion rates of students who attended these programs can be found online at jjc.edu/gainfulemployment.

Note: Restrictions exist for some out-of-state students. Further information is available at www.jjc.edu/iCampus.

Online Degree Courses

Online classes at JJC are fully accredited and transferable. Formats include online and hybrid courses. For a full list of classes, visit www.jjc.edu/class-schedule

Online Courses utilize the iCampus site to facilitate teaching and learning. Students enrolled in an online course do not attend class on-campus; however, some online courses may require campus visits for exams. Expectations of online courses are the same as face-to-face courses. The difference is that the assignments can be performed via computer.

Hybrid Courses are taught partially online and partially in a classroom setting. Hybrid courses reduce the amount of time spent in class on campus by moving lectures, coursework and other activities online. Hybrid courses deliver up to 74 percent of course instruction online with the remainder occurring face-to-face.

iCampus

iCampus enables students to complete coursework off-campus in an online environment using educational technology. Students can view presentations, read class assignments, submit coursework and discuss course topics with instructors and fellow students through the easy-to-use virtual classroom system.

How do I know if online courses are right for me?

Online students should possess good reading skills, be computer savvy, self-motivated and understand how to navigate the internet and be able to download, upload, save and attach files. While students need to be able to work independently, they should also expect to interact and collaborate with other students in class.

Online assessments are available to help determine if online courses and programs are right for you. Visit www.jjc.edu/icampus for additional information.

**** Requires a hybrid course**

Some courses may require proctored exams.

Associate in Arts (TR010)

The Associate in Arts degree prepares students who are planning to transfer to a four-year school.**

Website: jjc.edu/academics/degrees-certificates
