Out-of-district students will be admitted to the College; however, district residents will receive first choice of some programs. Residents of other junior/community college districts who intend to enroll at Joliet Junior College, Illinois Community College District 525, should notify their local junior/community College district and secure authorization prior to the time of enrollment. Their enrollment, as cooperative agreement, joint agreement, or comprehensive agreement regarding the expansion of educational resources (CAREER agreement) students, will be contingent upon their own junior/community college district’s authorization.
