04.06.00      COMMUNITY EDUCATION AND COMMUNITY SERVICES

Joliet Junior College (JJC) recognizes that in an increasingly complex society, education must become a lifelong process. To make educational opportunities more accessible to the entire community, JJC is committed to a program of community education and community services offered at various locations and times that meet the diverse needs of the citizens of the community.

Furthermore, the College will attempt to develop community education programs and community services that are directly responsive to the specialized educational and training needs and requirements of the community.
