JJC PROJECT NO.: R18016

Questions Received:

1. Question Regarding 2.4 Contractor will monitor theft in the market and will report and provide information about theft to college. The monitoring system is the responsibility of the contractor. The College will provide reasonable non-monetary assistance to the contractor to recover lost revenue. We no longer place Micro Markets in public places because the theft rate typically exceeds 40%. We've seen that other companies who attempt to put a micro market in schools and public areas often end up closing them within 6 months. Will you be asking the next provider for a service guarantee for the duration of the contract in order to protect JJC?
Any service guarantee or changes of term lengths would be discussed and negotiated with the finalist prior to contract execution.
