

Addendum No. 1

DATE: January 14, 2019

Joliet Junior College
1215 Houbolt Road
Joliet, IL 60431

TO: Prospective Respondents
SUBJECT: Addendum No. 1
PROJECT NAME: Switch & Wireless Replacement
JJC PROJECT NO.: B18029

This Addendum forms a part of the Bidding and Contract Documents and modifies the original bidding document as posted on the JJC website. Acknowledge receipt of this addendum as specified at the end of this document. FAILURE TO DO SO MAY SUBJECT BIDDER TO DISQUALIFICATION.

Questions Received:

1. Regarding the attached BOM, I do not see that Warranty/Support skus for technical assistance are included.
Correct. No SmartNet/support requested.
2. Can you please confirm if JJC is desiring support as part of the solution? Or if you would like this to be excluded?
No SmartNet/support requested.
3. We're being told that import tariffs will increase again on March 1st, and we do not know the exact increase in price for the Cisco equipment. Per the bid, it states that it cannot be modified for 60 days and pricing must be firm for 120 days. Please advise how we should proceed forward.
It is the vendors discretion on how to price their bid accordingly.
4. They are asking for quantity 37 on the C9300 but then are asking for quantity 72 on the power cables. 2 power cables for each C9300 equals out to 74, not 72. Also, they only ask for 10 of the NM-8X's.
The correct power cable quantity is indeed 74.
The correct quantity for C9300-NM-8X is 10.
5. I tried to create an estimate (HI88057693TQ (7 parts are able to be added)) for the attached and got a few parts invalid as of 1/4/2019 and parts not found.
 - a. C9300-48U-E INVALID 1/4/2019
 - b. C9300-NW-E48 NOT FOUND
 - c. S9300UK9-166 NOT SOUND
 - d. PWR-C1-1100WAC INVALID 1/4/2019
 - e. PWR-C1-1100WAC/2 NOT FOUND

- f. AIR-AP38021-B-K9 NOT FOUND
- g. TW-CTEN-2X2-3802B NOT FOUND

These are the correct part number for Cisco's Catalyst 9300 series switches per Cisco web site:

https://www.cisco.com/c/en/us/products/collateral/switches/catalyst-9300-series-switches/data_sheet-c78-738977.html#Ordering-Information

The part number for the wireless access point you are asking about AIR=AP38021 is incorrect. The bid document states part number: AIR-AP3802I with an "I" as in Indoor.

6. We would like a little more information on the scope of work for the project. Is this only for replacing existing switches and wireless access points? Also, what are the parameters of the current switches and wireless access points(10/100, 802.11) and what are the new requirements for the switches and wireless access points? Is any cabling needed in the scope of work or is existing cabling going to be used(as this will also play a role in speed requirements)?

The scope of this bid is for the stated switch and wireless access points hardware. Requested information is not required for bid submission.

End of Addendum #1
