SHI International	JJC Team, As this is my first time submitting an RFP to JJC, I was unclear how to populate the "bid pricing file." We've attached our pricing via an excel file. Please see below notes in regards to our pricing submission. We have submitted our proposal which does not contain the enterprise prime license management services. Those lines were blank on the request and when quoting the service as net-new, the service level SAS (software application support) is no longer a service level accepted by Cisco on non-renewal orders. They are pushing for the service level ECMU (essentially the same as SAS, but better software upgrades). The incumbent has access to these instance numbers to quote exactly what you would like, but unfortunately we cannot unless the instances are provided to us or if you'd like us to find them by signing the LOA. Thanks, Scott	SHI - RFP Response, Smartnet - Pricing File, Smartnet - Pricing File Notes									NoBid
