Robert Ferrilli, LLC	Ferrilli is unable to respond to the RFP as written due to the risks that bi-annual patching would bring to the institution. SharePoint vulnerabilities are numerous and frequent and it would be irresponsible for our firm to agree to the patching schedule specified in the RFP without informing JJC of the risk with the approach. Ferrilli provides ongoing management of SharePoint environments similar to that which JJC is seeking to receive consulting support. Ferrilli offers instead a managed SharePoint service as described below. As compared to what is requested in the RFP, Ferrilli will load patches a total of 24 times for each of the two environment over the course of the two year term. Scope of work Ferrilli will have the primary responsibility and provide monthly support for the following items: • Manage server/service functionality performance and health • 24x7 monitoring on critical Windows services for high availability		Total Project Cost Quantity column: Number of hours needed to complete entire scope of work. Unit Bid Price column: Hourly Rate to complete the items encompassed within the entire scope of work & entire term of the contract.	24	\$ 4,300.00	\$ 103,200.00				No
