

**Addendum No. 2**  
**Page 1 of 5**

**DATE: October 28, 2015**

Joliet Junior College  
1215 Houbolt Road  
Joliet, IL 60431

**TO:** Prospective Respondents  
**SUBJECT:** Addendum No. 2  
**PROJECT NAME:** Card Reader Access Control System  
**JJC PROJECT NO.:** R15011

This Addendum forms a part of the Bidding and Contract Documents and modifies the original bidding document as posted on the JJC website. Acknowledge receipt of this addendum as specified at the bottom of page 2. FAILURE TO DO SO MAY SUBJECT BIDDER TO DISQUALIFICATION.

---

**Questions Received:**

1. In the attached Scope document, the table of content as well as the body of the document is jumping from section 2.3 to 2.6 without any mention of a section 2.4 and 2.5. Could you please confirm if there is information missing or if this is an error in the document?  
***This is a numbering error within our document; no information is missing.***
2. Is the college willing to work with System Integrators in their evaluation of new access control systems or are you only requesting responses directly from the manufacture?  
***The college is requesting responses from Manufactures.***
3. What is the manufacture of the existing access control system and existing video recording system at the college?  
***Keyscan for card access and Cisco for Video***
4. Can we have more clarity of the definition of a Corporate Gateway?  
***The college requires the system to operate on our internal network.***
5. Can the server be Linux/Virtual based with the clients being windows?  
***The server can Linux but Not Virtual base.***
6. Does JJC have VMware? If so, can that be used to load the SMS server?  
***No.***

## Addendum No. 2

Page 2 of 5

7. Is there a preferred Video Interface?  
**Cisco VSOM**
8. Are there any other interfaces that the access control needs to interface with, for instance – active directory or visitor management system?  
**Active directory**
9. Please clarify the type of information we are to submit as the manufacture regarding “1.2 Quality Assurance Section 1.2B - Contractor/Integrator Qualifications”. We may have multiple partners or integrators that will pursue the project once released for bid. Are we to request each partner/integrator to provide this information to be submitted with our reply to this RFQ?  
**No, none is needed with your RFQ.**
10. What is the name/manufacture of the existing system?  
**Keyscan**
11. Are we to replace all existing panels?  
**The College would like to keep the housing the controllers are in. There would be a phased approach to replacing all existing panels**
12. RFI #1 for the Remote I/O states “Retrofit of the existing system shall require replacing SMS controller without replacing entire controller panel.” If we are replacing the existing system, this would include replacing the existing I/O panels. Please clarify this statement.  
**The College would like to keep the housing the controllers are in. There would be a phased approach to replacing all existing panels.**
13. The reference in the opening that this is a manufacturer only response but there are multiple sections that reference the integrator/contractor responding with references, delivery, certifications, etc. Who is to respond, Lenel or VAR?  
**Manufacture responses are requested.**
14. Does JJC have any guideline for the material they are looking to have back besides a Letter of Compliance?  
**NO**
15. We see an Attachment A referenced, do you have any additional materials on this that can be provided?  
**No**

16. Can you provide a detailed definition of “Corporate Gateway”?  
***The college requires the system to operate on our internal network.***
17. There is frequent reference of “No Additional licensing shall be required to perform this function” video, badging, etc... Can you provide a more detailed explanation of how you want these functions to be quoted? Quantities? Future expansion?  
***The College desires to be informed of all pricing structures from the manufacture during the presentation period.***
18. Is video to be provided with this Request for Proposal? If there is existing what VMS, Recorder & Camera system manufacturer(s) needs to be interfaced?  
***No, we want to know if they can interface with Cisco VSOM.***
19. Sec 2.3 E What auxiliary alarm and intrusion systems need to be integrated to the ACS System?  
***Red Hawk.***
20. Sec 2.3 G Can you be more specific on a few items in reporting. Lenel uses Crystal reports as the internal reporting engine.  
***Reporting needs to be included, No third party add-ons required.***
21. Active Directory. Are they looking for single sign-on (included in Lenel) or do you want a full integration with Active Directory mapping fields for cardholder management, access assignment or revocation, etc.? Please provide the depth of Active Directory integration.  
***Yes, the college would like full integration of Active Directory, with mapping of fields and access assignments and revocation.***
22. Redundancy...Why are you looking for physical boxes here not Virtual Machines? You say that the system needs to manage the redundancy while speaking with multiple servers acting as hot standby? Something like a NEC express clustering would be applicable for this role but the RFP says third party application is not acceptable. Can you clarify what Third Party refers to? Offsite storage?  
***The College is not looking for any virtual machines. The hope is for a turnkey install of hardware and software that is provide by the vendor.***
23. Sec 2.8 D Web client? Can you clarify your statement? Lenel can be reached via web using terminal services or one of our web apps like area access manager, video viewer, visitor manager, etc. Please specify.  
***The College desires to operate the system via a web browser and have no need for additional software.***
