Provide a narrative for each section below. If you need additional space, you may expand the fields.

NARRATIVE

Describe services, supports, and efforts that have been completed or experienced during this quarter.

On March 11, Director of Financial Aid, Deanna Fisk, provided notification that \$159 had been returned to the GEER I budget within the "Other" Category/ Program Expense because a student failed to pick up and cash their check. As a result, JJC decided to move those dollars into the "Contractual Services" Category/ Program Expense and put the dollars toward an Active Minds Speaker. The Active Minds Speakers are partially paid from the GEER II grant so the project aligned well with this grant.

DATA

Please provide a detailed summary of the data collected during the quarter.

UPDATE: On March 30, 2022, the Office of Student Activities hosted an Active Minds speaker at 13 students attended. This expense was paid in quarter 8.

BARRIERS

List any barriers the college encountered during the quarter

Because of the grant extension, we experienced no barriers to expending the \$159.
